# U.S. EXPORT SALES

- Outstanding Export Sales  
(Unshipped Balances )  
on December 22, 1974
- Export shipments in  
Current Marketing Year
- Daily Sales reported  
December 23-31

--As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our brief experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

U.S. DEPARTMENT OF AGRICULTURE, FOREIGN AGRICULTURAL SERVICE

EXPORT SALES REPORT

Comments on January 3, 1975 release:

Wheat: The reported export commitment (cumulative exports plus outstanding sales) increased by 837,000 metric tons (M.T.) during the two week period ending December 22. On an annual basis this rate of increase would total less than 22 million tons, or slightly more than 2/3 of the current USDA estimate.

Feed Grains: The reported export commitment increased by 987,000 M.T. during the two week period ending December 22. Corn accounted for the great bulk of the reported commitment. Corn sales of 101,600 M.T. to the European Community were reported under the daily reporting system.

Rice: An advance of 64,000 M.T. was registered in the reported export commitment during the two weeks ending December 22.

Soybeans: During the week ending December 22, the unadjusted annual rate of exports approximated 14.4 million M.T., slightly below that of the earlier week, but still well above the USDA estimate. Seasonally adjusted census data through November, however, indicate an annual rate of only 11.1 million M.T. of MY 74/75.

Soybean Cake and Meal: During the week ending December 22, the unadjusted annual rate of exports rose slightly to 4.1 million M.T. well below the USDA estimate. On a seasonally adjusted basis, census data through November, indicate an annual rate of 4.6 million M.T. still well below the USDA estimate.

Soybean Oil: During the week ending December 22, 1974, accumulated exports and outstanding sales to known destinations brought total U.S. soybean oil export commitments to over 540,000 M.T. for the 1974/75 marketing year within the range of the USDA forecast. Soybean oil exports during the week included Iran 15,000 M.T. and Bolivia 3,100 M.T.

Cotton: Upland exports during the week ending December 22 were 97,000 running bales (RB) bringing the season total to 998,000. Outstanding sales again declined less than exports and total reported commitment increased to 4,274,000 RB.
